

# Special Services For Special Goods!

Specialized services are available for unique and valuable commodities, ensuring the secure handling of hazardous materials, livestock transportation with care, as well as the proper management of standalone batteries and battery equipment. Our expert team also offers exceptional cold chain packing solutions to maintain product integrity.

## Dangerous Goods Handling

Our expertise extends to managing a wide range of hazardous goods worldwide, encompassing services such as Dangerous Goods Documentation (DGD), packaging, and DGR handling. We also offer support with Customs clearance and consultation for the safe transportation of dangerous merchandise.

## Standalone Batteries/ Battery with Equipment Handling

Our team is well-versed in categorizing, managing shipments, ensuring compliance, handling documentation, and labeling and marking independent batteries and battery-equipped items. This includes a wide range of products such as cell phones, IT equipment, medical devices, and toys.

## Live Stock Clearance and Handling

We ensure top-quality care and welfare standards while adhering to national importing regulations. Our services include coordinating with airlines, handling Customs formalities, providing cages, and offering expert consultancy.

## Cold Chain Packing Solutions

We have established a comprehensive system for managing temperature-sensitive products, which includes cold chain packing solutions, temperature-controlled trucks, dry ice and dry transporters, information loggers, and the booking of envirotainers. This system allows us to handle goods requiring temperatures ranging from 2°C to 8°C or 15°C to 25°C, as well as frozen commodities.
